# About Us

Sneed's Nursery & Garden Center is your local source for everything under the sun, and in the shade since 1976. Our offering of unique plant material, knowledgeable sales staff, and eclectic garden baubles inspires interest in the art of gardening and all things growing. We are a destination for Richmonders in the know...

Gardening is our business and our passion. At Sneed's, our goal is to educate customers on the importance of sustainable gardening practices and organic product choices. We are committed to fostering relationships within the community from the ground up. Sneed's recognizes our responsibility to be stewards of our environment, and we strive to share that information with our customers. We offer organic foods and solutions that work with nature to grow healthy and beautiful gardens, preserve our natural resources, and make Richmond healthy for present and future generations.
